

DANIEL PATTERSON

Business & Data Analyst | Payment Integrity, Audit Analytics & Quantitative Reporting

Tampa, FL • 772.486.6481 • dpatterson6575@gmail.com • danielpatterson1.github.io/Daniel-Patterson-portfolio • github.com/danielpatterson1

PROFESSIONAL SUMMARY

Quantitative business analyst with a progressive track record spanning accounting, data analysis, and audit-driven payment integrity work within a highly regulated, enterprise-scale healthcare environment. Specializes in independently identifying and validating financial anomalies at scale — including a duplicate payment analytics initiative that detected \$3.62M in overpayments at ~99% validation accuracy — and in building automated reporting pipelines using R, Python, SQL, and DuckDB. Recently promoted to Business Process Analyst III with near-full ownership of enterprise-wide bad debt and underperformer reporting across all facilities. Prior background as a commercial loan broker adds working familiarity with credit risk and underwriting. Incoming M.S. Analytics candidate at Georgia Tech (Fall 2026).

CORE COMPETENCIES

- Payment Integrity & Anomaly Detection
- Audit Analytics & Reconciliation
- Bad Debt & Underperformer Reporting
- Regulatory Compliance (HIPAA)
- Quantitative Validation & Testing
- Automated Reporting Pipelines
- Documentation & Process Controls
- Cross-Functional Stakeholder Delivery
- Credit Risk & Underwriting Fundamentals

PROFESSIONAL EXPERIENCE

Encompass Health — Business Services Office (BSO) | Tampa, FL

Business Process Analyst III

[Month] 2026 – Present

- Promoted from Business Process Analyst II in recognition of automation and audit impact; selected to take near-full ownership of enterprise Bad Debt Reporting after a hospital-level pilot proved out quarter-over-quarter improvement tracking and clean-up targeting — scaling to a dedicated report for every facility, with the finished work slated for the BSO Director to present to executive leadership.
- Built an Underperformers Report spanning all facilities to surface operational risk for leadership review, now being extended into a team-level version for more targeted coaching and follow-up.
- Automated the Refunds-to-Vendor matching process end-to-end into a cross-team Refund Accuracy Report that reconciles refund recipients against current vendor data and runs on a fully automated distribution schedule to AR teams — removing the manual review step and the risk of refunds routed to outdated addresses.

Business Process Analyst II

Dec 2025 – [Month] 2026

- Executed the OHPAC Placement Holds Audit, independently reconciling charge, receipt, adjustment, insurance, and patient balance data to validate account-level accuracy, and built the Revco Closed Archive Report using DuckDB to catch accounts silently exiting active inventory undetected by standard reconciliation files.
- Designed and deployed a fully automated Medicaid Due Diligence Report with mass-upload logic and standardized structure, surfacing \$671K in actionable backlog within its first month and projected to support ~\$1M in write-offs overall.
- Engineered a daily automated Duplicate Payment Report triggered by posting staff confirmation, giving executive leadership real-time visibility into credit balance posting accuracy.
- Authored the BSO Business Process Team report layout standard and Document Manager Audit Guidelines — reusable documentation frameworks adopted team-wide and presented to senior leadership — while onboarding and mentoring an analytical intern on audit procedures.

Encompass Health — Business Services Office (BSO) | Tampa, FL

Accounts Receivable Analyst III

May 2025 – Dec 2025

- Led a duplicate payment analytics initiative identifying \$3.62M in overpayments at ~99% validation accuracy — a quantitative anomaly-detection effort directly supporting recovery, compliance, and audit-readiness.
- Performed root-cause analysis on duplicate payment patterns — driving control changes that cut daily duplicate postings by ~60% month-over-month — and built SQL/Excel-based reporting tools to analyze high-volume payer, billing, and denial data for operations leadership.

Encompass Health — Business Services Office (BSO) | Tampa, FL

Accounting Assistant

Aug 2024 – May 2025

- Managed payment allocation and financial reconciliation across a portfolio of 15 hospitals, investigating and resolving high-dollar payment discrepancies to improve financial accuracy and revenue-tracking outcomes.

Vegas Golf the Game | Port St. Lucie, FL

Data Analyst / Strategic Planner

May 2021 – Apr 2024

- Supported operational planning and cash-flow tracking through basic forecasting models and performance reporting, contributing analysis that informed day-to-day resource allocation decisions.

Commercial Loan Broker

Aug 2017 – May 2021

- Analyzed client financial statements and business performance metrics to structure and underwrite commercial lending solutions, managing the deal pipeline from prospecting through closing and supporting early-stage operational buildout as part of the founding team.
